

Electromagnetic Field (EMF) Radiation Compliance Measurement Report - April 2026

Document Code: EMF-LAG-APR2026

Prepared by: Dr Emeka Nwachukwu (Compliance Manager)

Measurements by: Fatima Aliyu

Regulatory Basis: NCC EMF Guidelines 2019 (aligned with ICNIRP standards)

Submission Date: May 5, 2026

1. Regulatory Basis

NCC EMF limits for the General Public:

- 900 MHz band: 10 W/m2
- 2100 MHz band: 41 W/m2

2. Sites Measured This Cycle

- * TWR-IKJ-007 - Ikeja GRA
- * TWR-LEK-003 - Lekki Phase 1
- * TWR-VI-002 - Victoria Island
- * TWR-OJO-002 - Festac Town

3. Measurement Methodology

Measurements were taken at 1m, 5m, 10m, and 20m distances from tower base in all directions using a calibrated Narda SRM-3006 instrument.

4. Results Table

Site	Frequency Band	Distance	Measured W/m2	NCC Limit	% of Limit	Status
TWR-IKJ-007	900 MHz	1m	0.18	10	1.8%	COMPLIANT
	2100 MHz	1m	0.52	41	1.3%	COMPLIANT
TWR-LEK-003	900 MHz	1m	0.42	10	4.2%	COMPLIANT
	2100 MHz	1m	0.61	41	1.5%	COMPLIANT
TWR-VI-002	900 MHz	1m	0.25	10	2.5%	COMPLIANT

Electromagnetic Field (EMF) Radiation Compliance Measurement Report - April 2026

	2100 MHz	1m	0.48	41	1.2%	COMPLIANT
TWR-OJO-002	900 MHz	1m	0.21	10	2.1%	COMPLIANT
	2100 MHz	1m	0.44	41	1.1%	COMPLIANT

5. Instrument Calibration

Instrument: Narda SRM-3006

Last calibrated: March 2026 by PTB Germany

Certificate Reference: PTB/EMF/2026-0315

6. Site Conditions During Measurement

- * Antenna tilt and power output were standard operational settings.
- * Weather was clear with ambient temperature ~29C.
- * No abnormal interference noted.

7. Historical Comparison

Readings were consistent with April 2025 measurements. Slight reductions observed at TWR-VI-002 due to antenna optimization.

8. Public Exclusion Zones

All sites maintained exclusion fences/barriers at minimum 10m from tower base. No public access observed within restricted zones.

9. Findings

All four sites measured were COMPLIANT with NCC EMF limits.

Highest reading recorded: 0.42 W/m2 at TWR-LEK-003 (900 MHz), representing 4.2% of NCC limit.

10. Declaration of Compliance

MTN Nigeria certifies that all measured sites comply with NCC EMF Guidelines 2019 and ICNIRP standards.

Electromagnetic Field (EMF) Radiation Compliance Measurement Report - April 2026
