1. Week at a Glance

Total Alarms | P1 Incidents | P2 Incidents | Auto-Resolved | Manually Resolved | Escalated | SLA Met %
312 | 3 | 7 | 198 | 104 | 10 | 96.4%

2. Major Incidents Summary

INC-2841 - Lekki Fiber Cut (April 30)
A fiber cut occurred along Admiralty Way, Lekki Phase 1, affecting connectivity at TWR-LEK-003 and TWR-LEK-008. Transmission Engineer Ibrahim Musa coordinated rerouting through alternate paths. Field team repaired the fiber within 6 hours. Services were restored by 18:00 same day.

INC-2840 - Lagos West Power Failure (April 28)
EKEDC feeder tripped, causing extended outage across Surulere, Mushin, and Yaba North towers. Generators were deployed and monitored by Babatunde Okafor. Power was restored after 4 hours when EKEDC completed feeder reclosure.

INC-2838 - Festac Crowd-Source (May 1)
Multiple customer complaints reported degraded service at TWR-OJO-002. Investigation showed high congestion due to a local festival. Optimization changes were applied, but incident remains open pending capacity upgrade.

3. Network Performance

Region	Uptime %
Lagos West	97.2%
Ikeja	98.6%
Lekki	96.8%
Victoria Island	99.1%
Ikoyi	98.9%
Apapa	97.5%
Agege	97.8%
Festac Town	95.4%

4. Tower Status Changes

TWR-LAG-W-022 (Mushin): OK -> Warn (April 28, power instability)
TWR-LEK-003 (Lekki Phase 1): Critical -> OK (April 30, fiber restored)
TWR-OJO-002 (Festac Town): OK -> Critical (May 1, congestion event)

Weekly NOC Summary - Week 18, April 28 to May 4, 2026

5. Field Team Activity Log

April 28: Power team deployed to Surulere, Mushin, Yaba North - generator monitoring.

April 30: Transmission team repaired fiber cut at Lekki Phase 1.

May 1: Optimization team visited Festac Town for congestion mitigation.

May 2: Routine inspection at Ikeja GRA and Maryland Mall towers.

6. Planned Work Completed

Rectifier calibration at TWR-IKJ-019 (April 29).

Battery discharge test at TWR-VI-005 (April 30).

Preventive generator servicing at TWR-APP-004 (May 2).

7. Issues Pending Into Next Week

INC-2838 Festac Congestion: Owner - Oluwaseun Adeyemi. Target resolution: May 10, 2026.

Battery replacement scheduling at TWR-AGE-009: Owner - Babatunde Okafor. Target resolution: May 12, 2026.

8. Staff Notes

Shift coverage was adequate, though overtime was logged on April 30 due to fiber cut response. One technician (Fatima Aliyu) covered double shift on May 1 to support Festac incident.
