

STATUS: WARNING

SOP-001: Backhaul Fiber Cut Response

Effective Date: 2026-01-15

Owner: NOC Engineering

Review Date: 2026-07-15

1. Purpose & Scope

This SOP applies to all fiber-class backhaul events within the Lagos metro region, including Lagos West, Ikeja, Lekki, Victoria Island, Ikoyi, Apapa, and Festac.

2. Pre-Requisites

Two independent telemetry confirmations are required to initiate this SOP:

- Packet loss >30%
- Signal drop >20%

3. Step-by-Step Procedure

| Step | Action                                           | Owner        | Time Target | Verification           |
|------|--------------------------------------------------|--------------|-------------|------------------------|
| 1    | Confirm telemetry                                | NOC          | 0-3 min     | Two sources agree      |
| 2    | Auto traffic-shed to 2 nearest healthy neighbors | System       | 3-5 min     | Load absorbed          |
| 3    | Dispatch field-team-3 with splice kit            | amaka.o      | 5 min       | ETA confirmed <30 min  |
| 4    | Contact civil works contractor if permit active  | NOC          | 5-10 min    | Works halted           |
| 5    | Splice repair at junction                        | field-team-3 | <60 min     | Continuity test passed |
| 6    | 5-minute soak verification                       | oluwaseun.a  | 5 min       | Packet loss <2%        |
| 7    | Clear incident, update JIRA                      | NOC          | 10 min      | Ticket closed          |

4. Junction Mapping

| Junction Code | Region     |
|---------------|------------|
| LJ-7          | Lekki      |
| LJ-12         | Lagos West |

STATUS: WARNING

|      |                 |
|------|-----------------|
| LJ-3 | Victoria Island |
|------|-----------------|

5. Escalation Matrix

Tier-1 -> Tier-2 -> Management (if unresolved >2 hours)

6. Related SOPs

SOP-002: Emergency Power Failover

SOP-003: Fiber Route Diversion Protocol

7. Version History

| Version | Date       | Change Summary                         |
|---------|------------|----------------------------------------|
| V1      | 2025-01-10 | Initial release                        |
| V2      | 2025-07-15 | Added escalation matrix                |
| V3      | 2026-01-15 | Updated response timings and ownership |
