Q1 2026 Outage Summary - Lagos Metro

Date: 2026-04-01

Classification: QUARTERLY REVIEW

1. Executive Summary

A total of 47 Priority 1 and Priority 2 outages were recorded across the Lagos metro region during Q1 2026. The majority of incidents were attributed to fiber cuts and grid-related power failures, with Lekki, Lagos West, and Festac emerging as the most impacted zones.

2. Outage Cause Breakdown

Cause	Count	%	Most Affected Region
Fiber cuts	18	38%	Lekki/VI
Power/grid	14	29%	Lagos West
Congestion	8	17%	Festac/Surulere
Thermal/hardware	4	9%	Ikeja
Microwave jitter	3	7%	Lagos West

3. Regional Hotspot Summary

Region	Outage Count
Lekki	11
Lagos West	9
Festac	7
Ikeja	6
Victoria Island	5
Ikoyi	4
Others	5

4. Mean Time to Detect (MTTD) Improvement

The average MTTD improved significantly from 8.4 minutes in Q4 2025 to 3.2 minutes in Q1 2026 following the rollout of Smart Alerts across the metro network.

5. Mean Time to Mitigate (MTTM)

STATUS: QUARTERLY REVIEW

The average MTTM for fiber-class outages was recorded at 22 minutes, with field-team-3 on continuous standby for rapid dispatch.

6. Top 5 Most Impacted Towers

Tower Code	Location	Subscribers Impacted
TWR-LEK-003	Lekki Phase 1	14,200
TWR-LAG-W-014	Surulere	12,800
TWR-LAG-W-022	Mushin	13,200
TWR-OJO-002	Festac Town	11,600
TWR-IKJ-019	Ikeja Allen	10,900

7. SLA Compliance

Metro-wide SLA compliance for Q1 2026 stood at 94.2% uptime, exceeding the internal benchmark of 93%.

8. Q1 vs Q4 2025 Comparison

Metric	Q4 2025	Q1 2026
Total Outages	52	47
MTTD (min)	8.4	3.2
MTTM (min)	26	22
SLA Uptime	92.7%	94.2%
